CARAVEL
TECHNICAL
COLLEGE
A STEP CLOSER
TO SUCCESS

ABOUT US

2010 was a year of innovations and discoveries, Youtube, Airbus, XBox, Face Transplant Surgery made a foray into the public domain. And along with them, Caravel Technical College started its humble journey at Contai, East Midnapore.

Back then, the cost of pursuing a degree in management was skyhigh. And that pushed a lot of students to opt out from this fantastic opportunity to join a booming industry. Which is where the founders of our institute, came into this bleak academic picture and transformed the lives of many students when they opened the doors of Caravel Technical College. And students from East and North East India were looking exactly at this opportunity to get a global exposure at a very friendly budget. And thus, with 26 bright and young batch of students, Caravel Technical College took its flight to take the world by storm.

And since then, it has been an upward journey of all round development for Caravel Technical College. With our ever growing infrastructure, state of the art

labs, and most importantly our distinguished faculty members, we have managed to earn the faith of the students and trust of their guardians. And we kept our promise and provided the students the best in class academic environment so that they excel and get placements from all over the world.

This journey of a decade and a half has garnered accolades from all quarters, which includes the NAVA JYOTI award for being the best institute for placements for the years 2012and 2015 consecutively.

14
years old college

100+
Students placed abroad

50+
Recruiting Brands (National & Global)

We extend our gratitude to the parents and guardians of the students who extended their immense help and support till date, so also did the students and the relentless efforts of all our faculty members and all other staffs of our institute encouraged good stay and good results from the students. The state of the art Labs also was of immense help for the students, thus with all honesty the mission of C.T.C. stands as the forerunner. To top it all was excellent placement.

To create a world renowned technical education Centre imparting management and technical knowledge catering to the needs of the changing scenario of the Hospitality world besides contributing in the fields of Hospitality and customer service. We by large have plans to open up more class category institution on Pan-India basis to create more job opportunities for upcoming generation.

Caravel Technical College, one of the premier Centre of Excellence in Hospitality Education, has over the past 11years, become a symbol of world class education in Hospitality Management in India, creating middle Managers as well as Senior Executives in the Hotel Management and Tourism Industry, with National and International accreditation and also producing a number of Hospitality leaders who are now the trend setter of the Global Hospitality Industry.

Caravel Technical College is known for its multimedia and animation courses by which people will avail themselves of the benefits ata minimum cost. If you are a just passed-out student and want to start a new career, you should look for visualization and pre-production design learning, VFX design, 3D animation, VFX basics &3D design, Publishing & Print, Visual effects, etc. If you want to learn some hardcore front-end coding skills, you may join the course of web design and development as well. Apart from being a professional in some other fields, you should learn these skills for freelancing purposes. Multiple practice projects and placement opportunities are there to enhance your career growth.

CARAVEL TECHNICAL COLLEGE

THE BEST JOBS IN THE WORLD

What if you could get paid to taste ice-cream or chocolates or how about travel the world in cruise liners and get paid or working amidst exotic landscapes & wildlife in South Africa, or showing creative skills on a stunning beach of Caribbean island.

Sounds inpossible dreams? Not with us... After all, the best things happen to those who join CTC.

MULTIMEDIA AND ANIMATION

THREE YEARS FULL TIME PROGRAM IN MULTIMEDIA AND ANIMATION

Here are the 3 steps that build the process of animation

PRE-Production
The first stage comprises creating a visual form and defining the character design for the story. It's followed by storyboarding, where the story is detailed out frame by frame. Post storyboarding, the individual panels are edited together along with dialogue, music and sound effects to see the entire flow of a movie in a process known as animatics. It is the most important stage of the entire 3 – stage process, which helps to conceive and design the film.

Production
Production begins with modeling or creating Computer Generated (CG) backgrounds, characters and props for the characters designed in pre – production. These 3D models are then sent for texturing, where they're given another layer of authenticity by adding age – specific elements, accessories and background. The next step involves rigging, where bone structures are added , connected to customized controls. These pieces are then given lighting for that authentic look and feel. Finally, each shot is rendered to create the final output.

POST-Production
The final stage involves compositing. This brings together all the rendered elements from the previous stage and compiles them together to form a single image sequence. It also adds post – processing effects to it that finally enhances the look and feel. Post these process, sound effects are added to give the film another layer and more depth. The background music, soundtracks and voice- overs bring the film alive. Finally, the shots are compiled and edited in seamless sync..

AD3D EDGE PLUS

Advanced program in 3d animation

Animation has fascinated us all, right from our childhood. We've imagined creating our own series, character, storylines and much more. With CTC's flagship course, AD3D EDGE PLUS, imaginations can finally become reality. We offer training in a number of filmmaking techniques that are involved in the animation process, which help the students acquire skills that make them the best in the field.

Online learning is quickly taking over the education system. With the ever- evolving animation industry, and technology advancing in leaps and bounds , CTC ensures its students are always updated with the most relevant tools and technologies of the industry. By launching new software in its curriculum, all of which is delivered online, the students get an exciting opportunity to understand the new – age production workflow and widen their scope of learning.

CTC encourages skill enhancement with a standard delivery mechanism and 48 hours of online expert sessions. This way one can be assured of a healthy and well- balanced learning system.

Duration: 600 Hrs

This course brings the perfect blend of classroom learning and online learning to match the dynamic nature of the industry.

- 600 hours of classroom delivery. Covering every aspect of animation including elective specialization and new age software, kept at per with the latest in technology.

THREE YEARS FULL TIME PROGRAM IN HOSPITAL MANAGEMENT

Hospital Management is one of the most recent concepts in the field of management courses. It is the most important & lucrative career in the health sector. In the early days, senior specialists used to perform the role of a hospital manager. At present, the things are changed and the services of these professionals are required for the smooth functioning of hospitals. The term which applies to those professionals who organize, co-ordinate, direct and supervise the delivery of medical services is "Medical and health services manager". Hospital Management provides management skills for the delivery of health care services. Hospital management is known as management or administration of hospitals. It provides a direct connection between health care services and those supplying health services they require. Hospital Management career involves ensuring effective use of physical and financial resources of the hospitals. It also helps to create an organizational climate which is beneficial to the growth and development of the person. Hospital managers have become essential to manage hospital and medical facilities. They are responsible for education, overall patient care, research and community health care related to the organization.000

STUDENT TESTIMONIAL

One of the most enriching experiences of my life. Thanks to the faculty and staff for being so encouraging and nurturing. Caravel Technical College will always be special to me. A special thanks to the faculties for their fierce dedication to their craft and purpose continues to inspire everyone around him.

Gouranga Jana
Taj Visakhapatnam

As an ex-student of Caravel Technical College, and one of the pioneer students of the institute, I feel honored and privileged to be a part of such a family. The state of the art institute has not only given me education but also the most extensive knowledge about the hospitality industry all around the world. The Director, faculty and staff have played a major role in bringing out the best in me and given me the confidence of being the individual that I am. The fact that the institute provides its students the wings and encourages them to showcase their strengths and talent is commendable. I am proud to be a part of the CTC family.

Suman Maity, Alaska
Flyover drinkery

It has been an amazing journey, studying under hospitality professionals and especially being a part of the Caravel Technical College family during the last three years. It was a good experience, considering the fact that the college has state of the art infrastructure and facilities that make it even more interesting. I truly believe that I'm ready for the hospitality industry after gaining a lot of experience not only from classes but also from curricular and co-curricular activities. I thank my mentors and colleagues, for molding me into the hospitality product that the industry needs.

Ghanashyam bera
whiskey samba

Caravel Technical College not only provides one with intensive knowledge but also with valuable training, hands on experience, professional skills and confidence to excel in this challenging industry I am proud to be a student of CTC!

Malay Nayak,
